

JOB DESCRIPTION: MACHINIST

Barreto Manufacturing is seeking a reliable and detail-oriented Machinist to join our team. This role involves operating CNC machines, interpreting work orders and prints, and preparing finished parts for transfer. The ideal candidate has prior machining experience, a willingness to learn, and the ability to follow instructions and maintain accuracy in a fast-paced environment.

Responsibilities:

- Operate CNC machines to produce precision parts according to specifications.
- Read and interpret work orders and technical prints.
- Clock in/out of jobs to report production accurately.
- Deburr, chamfer, and finish parts using tools such as files, chamfer bits, and deburring tools.
- Stack, wrap, and palletize finished parts for transfer to other departments.
- Perform cycle counts and track part quantities for inventory accuracy.
- Use tools and equipment including a hammer, cordless drill, calipers, and others as needed.
- Follow all safety protocols and maintain a clean and organized work area.
- Occasionally lift and move heavy materials as needed.

Qualifications:

- Previous machining experience preferred.
- Ability to read and interpret blueprints and technical drawings.
- Familiarity with calipers and other measurement tools.
- Willingness to learn and take instruction.
- Strong attention to detail and work ethic.
- Ability to work both independently and as part of a team.
- Physical ability to perform tasks requiring lifting, standing, and repetitive motion.

Benefits:

- Competitive compensation
- Opportunities for growth and advancement
- Health insurance options
- Retirement plan

To Apply:

- Submit your completed application to hr@barretomfg.com or apply in person at our corporate headquarters: 66498 Highway 203, La Grande, OR 97850.
